Lenexa, Kansas

SUMMARY

An ambitious software engineering fellow with a mechanical engineering background with a track record for providing reliable technical expertise, project management, and program delivery. An innovator who excels in the challenge of accurate solutions for difficult situations in product design, testing, and development. A well-rounded and reliable leader with outstanding interpersonal and communication skills, driven to develop and grow within a challenging and rewarding career and work environment.

SKILLS

Programming Languages	JavaScript, Python, HTML, CSS, MATLAB, C++, Java, LabVIEW
Framework & Libraries	React, Django
Databases	MongoDB, SQL, PostgreSQL
Platforms	SolidWorks (CAD), Patran/Nastran, Microsoft Office
Miscellaneous	GD&T, Research and Testing, Stress and Strain Analysis, Thermodynamics and Mechanics, Finite Element Analysis (FEA), AWS S3
Languages	English, Korean, Spanish

EXPERIENCE

Software Engineering Fellow
Oct 2021 - Current

General Assembly

500+ hours of intensive training in a variety of modern programming languages and technologies

- Produced four applications using full-stack JavaScript and several other programming languages

Direct Methanol Fuel Cell Research · Co-Leader
Jan 2019 - Dec 2019

University of Kansas

Investigated the use and impact of direct methanol fuel cells in material handling applications

- Developed and tested methods to increase performance and decrease costs of direct methanol fuel cells
- Planned, scheduled, and aligned personnel, project testing resources to ensure reliable results

Dilatant Decelerate System · Project Leader
Jan 2019 - May 2019

University of Kansas

Responsible for redesigning US Air Force helmets to reduce whiplash and augment safety and function

- Constructed and tested 30 prototypes to ensure quality and reliability while not compromising functionality
- Successfully reinforced helmet base plate to allow full lateral head movement by 35%

EDUCATION

General Assembly
Oct 2021 - Current

Software Engineering Immersive

University of Kansas
Aug 2014 - Dec 2019

B.S. Mechanical Engineering (BSME)
